

Event Creation, Resulting & Settlement (ECRS)

Product Overview

The ECRS is a comprehensive event and result service that integrates into sportsbook trading systems and facilitates automation.

The screenshot shows the ECRS web interface. On the left is a navigation menu with categories like Bulgaria, Croatia, Czech Republic, Denmark, and England. Under England, there are sub-categories like Championship, Conference North, Conference South, Division One, Division Two, English League Cup, FA Cup, FA Cup (Early Rounds), FA Trophy, Football Conference, Johnstone's Paint, and Trophy. The main content area has tabs for Events / Markets / Selections, Results, Changes, and Multkeys. Below the tabs is a calendar for February with days F30, S31, S01, M02, T03, W04, T05, F06, S07, S08, M09, T10, and W11. The selected date is Saturday, 07 February. Below the calendar, there are three checkboxes: Select / Unselect all: Pre-match markets, Select / Unselect all: Betlive markets, and Select / Unselect all: Live Match Stats markets. A table titled 'Football / England / Premiership' shows a match between Portsmouth vs Liverpool at 17:30. The table lists various market selections with checkboxes, all of which are checked.
